BRAINSPARK

Understanding the score:

BRAINSPARK

This report ranks your scores within a range from 'very low' to 'very high'. To enableyou to make a comparison the percentage of people* who normally fall within eachrange is indicated.

**Normal adult working population. Please note that distribution of scores may differ ifcomparisons are being made against other cultural, demographic or specific occupational groups.*

Approximate distribution for normal adult working population:					
Ranges	Very Low	Low	Middle	High	Very High
Cumulative percentile	< 7%	7% > 30%	30% > 70%	70% > 93%	> 93%
Range size	7	23	40	23	7

The Strongest Personality Factor

The Factor test score furthest away from 50 - above or below - indicates the person'sstrongest personality trait. This personality trait is likely to have the greatest influence on your overall behaviour, motivation, values and reactions to life and work situations. The next furthest away from 50 - above or below - is likely to have the next greatest influence and so on.
